EDUCATION

Indian Institute of Information Technology Bhopal November 2022 - Present
B.Tech in Information Technology **CGPA: 9.39**

WORK EXPERIENCE

Digital Guruji - Node.js, Express, JavaScript, Flask, Zapier, AI4Chat.co
Full Stack Intern **August 2024 - Present**

- Created **AI-powered automation workflows** using **Zapier, Node.js, Flask** for diverse client needs.
- Designed backend logic for **10+ workflows** with secure API integrations and improved performance.
- Built full-stack apps like **Airbrush** (AI image gen) and **Brandscreen** (testimonial tool), serving **500+ users/month**.
- Delivered **scalable client solutions** with real-time features, collaborating across **3+ departments**.

CODAME, IIIT Bhopal - Next.js, JavaScript, TailwindCSS, Node.js, Express, MongoDB
Web developer **September 2023 - April 2024 (Full Time)**

- Deployed an official club website that attracted **100+ daily users**, improving member engagement by **60%**.
- Built a backend with **Node.js and MongoDB** handling over **1,500 requests/month** with minimal downtime.
- Reduced page load time by **35%** using lazy loading, caching, and enhanced image delivery.

PROJECTS

File Sharing App - Next.js 14, TailwindCSS, Clerk Auth, Resend Email, Firebase **Website**/**Github**
- Implemented password protection and secure **file storage** using **Clerk encryption**, allowing users to access and share files securely.
- Integrated **Clerk Auth** with OAuth (Google, GitHub, Facebook), boosting onboarding by **70%**.
- Minimized average file upload time by **40%** through performance tuning and optimized Firebase integration.
- Developed real-time **CRUD operations** for user and file management, supporting **10+ concurrent users** without latency issues.

Codame Website - Next.js, JavaScript, TailwindCSS, Node.js, Express, MongoDB **Website**
- Collaborated with the team to build an engaging club website with **optimal responsiveness** and **modern design**, used by **100+ students**.
- Launched a full-stack app with a high-performance **Node.js RESTful API**, minimizing data retrieval time.
- Streamlined database access and reduced query load using efficient HTTP-CRUD routing with **Express.js**.

Promtopia - React.js, NodeJs, TailwindCSS, MongoDB, Express, OAuth, MERN **Website**/**Github**
- Programmed a prompt management platform that handled over **1,000+ prompt entries** with efficient tag-based categorization.
- Constructed **10+ backend API routes** for prompt and user operations using Express and MongoDB.
- Enabled secure sign-in using **OAuth2** and **bcrypt v5**, enabling sign-ins through multiple platforms.
- Added **advanced search functionality** for quick prompt discovery using **tags**, enhancing search efficiency.

ACHIEVEMENTS
- **Pupil** on Codeforces (**max rating − 1325**) Codeforces
- **3-star** on Codechef (**max rating − 1674**) Codechef
- **Knight** on Leetcode (**max rating − 1851**) Leetcode
- **4-Star** on GeeksForGeeks (**max rating − 1923**) GFG
- **Teaching Assistant — Engineering Mathematics, IIIT Bhopal**

SKILLS

Languages: JavaScript, Go, C++, C, Python, Java, HTML, CSS

Frameworks and DevOps: React.js, Next.js, Express, Node.js, Docker, Kubernetes

Libraries: Material-UI, Redux, Redux-Toolkit, React-Router, Bootstrap, TailwindCSS, Chakra-UI, Context-API

Databases: MongoDB, MySQL, PostgreSQL

Dev Tools: Git, GitBash, Visual Studio Code, Postman, Vercel
